BUDGET MESSAGE FOR 2017 - 2018

The Oceanside Library is turning 80 this year! We think the Founders would be proud of today's Library. From our humble beginnings in 1937, with only a few dozen donated books, we have grown into the hub of our community, leading in the advancement of literacy, culture, education, and discerning entertainment.

What started as an idea at the School #2 PTA meeting of April 6, 1937 has grown into a vibrant center, which last year saw over 250,000 patron visits, and which hosted over 1,100 programs attended by over 33,000 people! Our services range from supporting book clubs, to helping with research; from resume aid to helping you find that perfect next book to read at the beach. Our programming is diverse: theatre, concerts, lectures, computer classes, foreign language classes, book discussions, trips, Science Café, panel discussions, Healthy Oceanside lectures, workshops and exercise classes, community service opportunities for our teens, robots and other STEM programs, tax assistance for seniors, and so much more. We've increased programs for those with special needs, for students of all ages, and for our non-English speaking neighbors. We hold lectures and workshops on topics of immediate importance to Oceanside, like fighting heroin addiction, bullying, allergies, and others.

Whether in the Library, where we offer books, periodicals, electronic databases, DVDs, CDs, museum passes, computer and printing access, or online, where you can download eBooks and audiobooks, access a free tutor, or use our research databases, we are committed to meeting the needs of our community. This year we added a new online periodical service called Zinio which gives you free access to more than 100 current magazines from your computer, smart phone, tablet, iPad or any device and a new foreign language database called Pronunciator which allows you to learn over 80 languages with self-directed lessons.

The Board is proud to present a budget that best serves the needs of the Oceanside community, while being mindful of New York State's tax cap. This year's proposed budget stays within the tax cap, without cutting any of our library's services or hours. Some of the challenges facing the Board were an increase in the minimum wage and an increase in state mandated benefits. This year's budget will increase by 1.89%, which results in the average household paying an increase of approximately 19 cents per week, or \$10.00 for the year.

Please come in and experience the rich variety of programs, services, materials and activities that we offer.

Karen Porcella, Library Director
